

## Motorcycle Minimum Test Vehicles

The requirements for motorcycle minimum test vehicles (MTV) are as follows: A1 any motorcycle over 75cc and less than 125cc and capable of less than 62.5 mph (100 Km/h). A2 any motorcycle over 120cc and less than 125cc and capable of at least 62.5 mph (100 Km/h). Maximum 11 kW 14 BHP

A (DAS) Direct Access scheme and Accelerated Access (AA) - Any machine at least 35 kW (46.6 BHP)

If, when deciding whether to issue a category A1 or A2 pass certificate, examiners are in any doubt as to which category to issue they should issue the lower category of pass certificate. If credible evidence from the manufacturer or official importer, or from another equally credible source, evidences that a particular machine meets the minimum test vehicle specification the list will be updated.
