

# Tram signs, signals and road markings

Trams can run on roads used by other vehicles and pedestrians. The part of the road used by trams (the "swept path") may have a different colour or textured surface to the rest of the road, or it may be edged with special road markings. **Keep the "swept path" clear.** Trams cannot move out of the way of other road users!

Route for trams only (and buses where the upper sign also includes the bus symbol)

Indication of a tram-only route at a junction ahead

Warning of trams crossing the road ahead

Road marking indicating the start of a route for trams only (and buses when varied to TRAM & BUS ONLY)

Reminder to pedestrians to look out for trams approaching from both directions

Drivers of other vehicles must give way to trams at level crossings without barriers, gates or road traffic light signals. Sometimes just a "give way" sign and a tram plate may be used

## Examples of signs, signals and road markings for tram drivers

The signal mounted to the right gives instructions to tram drivers; these instructions may not be the same as those given to drivers of other vehicles

Stop unless it is unsafe to do so

Stop

Proceed ahead

Proceed left

Proceed right

Stop line for trams at traffic signals where that part of the road is not used by other vehicles

Speed limit sign for tram drivers shown in kilometres per hour. All diamond-shaped signs are for tram drivers only
